

ENVIRONMENTAL POLICY STATEMENT

Charles Edward Limited acknowledges that the business has an impact on the environment and we are committed to managing and reducing that impact through the adoption of the following policy, which requires us to:

- To identify and evaluate the environmental consequences of the Company's activities and to ensure pollution prevention measures have been implemented.
- Promote and support 'best practice' for maximising environmental benefit, to encourage environmental improvement and minimise the potential for environmental damage that maybe caused by our operations.
- Educate and train our personnel to promote awareness and understanding of environmental issues.
- Ensure that any sub-contractors demonstrate compliance with our environmental policy and that of our clients.
- Minimise the total amount of waste produced by our operations and maximise recycling of waste produced.
- Where applicable, liaise closely with statutory and local authorities, clients, third party organisations and the general public with regards to environmental matters and impact of our works.
- Review our environmental performance by regular auditing of operations, identify and rectify any deficiencies and promote continuous improvement.
- Establish and maintain an effective Environmental Management System, and to continually develop our systems to support our core business operations, supported by proven Environmental Consultants where appropriate.

Management review this policy annually and establish environmental objectives and targets that are consistent with the businesses current policy commitments.

This policy will be kept under review so as to ensure that it continues to meet its aims.

This policy applies to all personnel of Charles Edward Limited
